« *Dear Mark,*

As you know, my great passion in sports is tennis, especially veterans' tennis tournaments throughout Europe. But last year, due to severe knee pain, weakness, and lack of flexibility, I was unable to play anywhere close to my capability.

However, after a few training sessions with you in Switzerland, that all changed. You really zeroed in on an individualized program that enabled me to return to tournament play. Now I'm actually performing at a higher level than before thanks to your help.

I also appreciate the professional and friendly manner in which you deliver your service. – Sincerely, Ted Nicholas”
